TALKIN' SUPERFROG HAND PUPPETS

A NEW TWIST ON A FOLDED FAVORITE

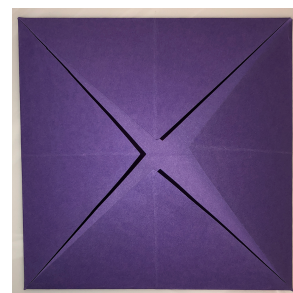

Courtesy of TCU Magazine

If you remember making "fortune tellers," you will find it easy to create these folding toys with your little Horned Frogs. You'll need:

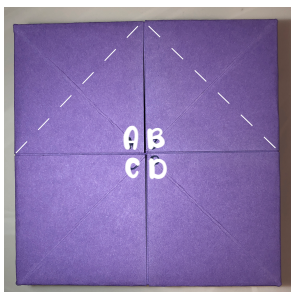

An 8 1/2" Square of Paper
Googly Eyes
Decorative Pipe Cleaners
Glue
Optional Decorations

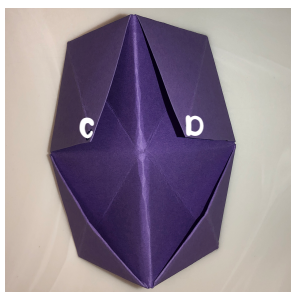

1. Begin by folding a square of paper diagonally, from both directions.

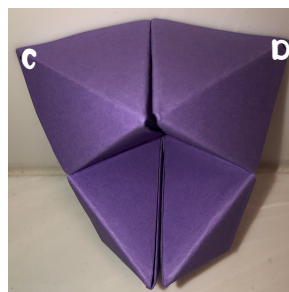

2. Fold the corners of the square inward toward the center. Flip the paper over and repeat steps on opposite side.

3. Flip the paper over again and fold flaps A & B underneath.

4. Fold square in half, placing your thumb and ring fingers under the folded flaps A & B. Place your middle and index fingers under flaps C & D.

5. Pinch fingers together bringing the shape of SuperFrog to life. Flaps C & D become the eyes/ears of your puppet, while A & B become the mouth.

6. Decorate as desired. Use pipe cleaners to create spiny horns on the top corners. Grab another colored piece of paper to make a tongue. Start talkin'!
